Weekly Progress Report

Maya · Grade 5 · 19 to 25 October 2026 · ⭐ 214 stars in total

A good week. Maya practised on 5 of 7 days and got 82% of 100 questions right. Two new skills are mastered, and two topics need another look.

5 days	100	82%	68 min
practised this week	questions answered	correct	of practice this week

Questions answered each day

🏅 Mastered this week

- Add and subtract fractions with unlike denominators
- Long division

⚠️ Worth another look

- Multiply decimals by decimals
  9 of 16 correct so far
- Multi-step word problems
  6 of 11 correct so far

📈 Working on

- Multiply fractions and mixed numbers — Meridian Score 74
- Find a percent of a number — Meridian Score 61
- Area of triangles and parallelograms — Meridian Score 48

Next week's plan

1. Ten minutes on multiply decimals by decimals, using the hints and the worked examples.
2. Keep going with multiply fractions and mixed numbers, which is the next skill to master.
3. Try one Puzzle of the Day on the two days with no practice.
